# MESSAGE FROM THE **Chairperson's Desk**

**Purushottam Adhikari**

Founder Chairperson

Creating a well balanced college is really a herculean task. In the crowd of mushroomy colleges, students and parents should find the one where really they are led to an excellent direction. It is the right time for students and parents to distinguish differences between the so-called Hi-Fi and the better knowledge appliers.

So, we, at ED-MARK encourage our students to challenge with all sorts of hurdles created in New-Era. Education is for knowledge and that knowledge becomes fruitful only when it can be used in other fields of application. So, the knowledge we gain must be skill oriented.

I hope you will find the contents of this prospectus of interest and relevant. We are empowered with visionary youths and proactive faculties to impart the ways of fishing rather than giving you a fish for a day.

I wish you a happy and productive year.

Thank you !

# MESSAGE FROM THE **Principal's Desk**

**Shiva Adhikari**

Founder Principal

I would like to congratulate all our prospective students for your great success in getting through the iron gate of SEE. Now it is time for you to join a higher secondary (10+2) school to do it in. The decision of choice of school after SEE will have a profound influence on your future career, so, you must be more considerate while making such a crucial decision.

Through its establishment, ED-MARK Academy has been widely acclaimed for the high quality of its teaching, high degree of discipline, it has maintained an excellence of its graduates. ED-MARK is always dedicated and concerned to introduce teaching and learning systems that help students achieve their academic potential.

We sincerely believe discipline is the mother of all success. Discipline is a kind of realization in the mind of students. When students enter the premises of ED-MARK, they experience such realization within themselves. With such an attitude in their minds, our students will be motivated to their academic excellence. This is the secret of success of students at ED-MARK. It offers a wonderful and challenging environment for students to explore and realize their potential in all dimensions by inspiring some finer sides of higher education lacking elsewhere, like emphasis on quality, discipline, great college life and a guided learning environment.

Finally, I would like to welcome all our prospective students to ED-MARK - a unique place to learn, to achieve academic and personal excellence and to shape the future.

Sincerely!

# Introduction

ED-MARK ACADEMY, established in 1999 A.D., is located in a spacious and well-managed locations of Kalanki, Kathmandu. It was established by a group of highly professional academic experts ever dedicated in the field of education. Our efficient management, expert and dedicated faculty as well as enthusiastic and highly motivated students are our pride. We have left no stone unturned to cater 'ED-MARK Experience' among our students.

We believe that knowledge is scattered and we must initiate genuine efforts to assemble and sort them out. To know how to swim, you must go into water. The world is ever expanding and challenging. We realize we must train our students to accompany the pace of the world. Undoubtedly, we strive to make our students the civilized global citizens. It's true a country is rich not by its natural and other resources but by its human resources. Our multidisciplinary products have been proved efficient within country and abroad. Teaching and learning in the core shaped by extra-curricular activities are the strong foundations which have guided us in the path of glory.

## Mission

- \* To produce skilled human resources in productive and professional areas.
- \* To build a legacy of excellence by imparting both theoretical and practical education.

## Strategy

To attain the goal, we train our faculty heads and members to disseminate quality education. We counsel the students regularly so that they are updated and refreshed. We have adopted the best forms of technology to let students know where the world is leading. We have forwarded the idea to make the students responsible as social beings involving them in different social fields and activities.

## Objectives

- \* To develop graduates in the areas of Science, Management, Humanities and Law.
- \* To provide quality education using modern student-centered teaching methods and techniques.
- \* To focus all round development of students both with CA and ECA.
- \* To produce physically, intellectually, socially and emotionally healthy citizens of the world.
